RE: Post-Closure Hazardous Waste Landfill Located at 4180 South Creek Road,  
Chattanooga, Tennessee (the "Site")

Dear Sir or Madam:

This firm represents the owner of the Site, MetalTek International, Inc. (the "Permittee"). The Tennessee Department of Environment and Conservation ("TDEC") Division of Solid Waste ("DSWM") has placed the Site into post-closure status as evidenced by that certain Post-Closure Hazardous Waste Permit with Permit Number TNHW-154 (the "Permit"). The Permit requires Permittee to perform post-closure care and monitoring of the Site. Permittee modified the Permit on November 28, 2018, as herein described (the "Permit Modification"). This letter provides notice of the Permit Modification to you as a party on the TDEC Mailing List for Persons Requesting to be notified of Hazardous Waste Issues in Hamilton County.

The Site comprised one (1) parcel and previously occupied approximately 18.98 acres of land. The Permit imposes certain land use restrictions on the Site as evidenced by that certain Quitclaim Deed filed in the Register's Office for Hamilton County, Tennessee at Book 6268, Page 599, (the "Land Use Restrictions"). Permittee subdivided the Site into two (2) parcels and modified the Permit to release from the Permit a 13.62-acre portion of the Site, as evidenced by that certain Partial Release of Land Use Restrictions filed in the aforementioned records in Book 11517, Page 228. Accordingly, Permittee modified the Permit to revise the definition of "Property" and to release the 13.62-acre portion of the Site from the Land Use Restrictions.

This firm represents only the interests of the Permittee. We do not represent you, or your interests, or those of any other property owner, in connection with this matter. You may contact Clayton Bullington of TDEC/DSWM at 711 R.S. Gass Blvd., Nashville, TN 37216, or by phone at 615-532-0852 to obtain a copy of the Permit Modification or for more information.

Sincerely,

Rachael W. Ruiz
